

ONLINE TUTORIALS FOR GORDON ACADEMIC COLLEGE OF EDUCATION'S FACULTY ON Designing Courses and the use of online tools for teaching and learning.

Next to the MOODLE ICON is an "advanced moodle" which provides online instructions and tutorials for GACE's faculty to design more accessible courses based on the training in Zugdidi and from the guideline handbook designed by University of Masaryk on this topic. This is a NEW improved section that was influenced by DARE

The screenshot shows a Moodle course page in Hebrew. The browser address bar displays the URL: <https://online.gordon.ac.il/course/view.php?id=20931>. The page title is "מודל מכללת גורדון" (Gordon College Model). The main content area features a grid of course modules. The "עבודה ב Moodle" (Work in Moodle) module is highlighted with a red box. Other modules include "תמונות באינטרנט", "כלי גוגל", "כלים לעבודה שיחופית ברשת", "מודל - פעילויות מתקדמות", "שילוב איפדים בהוראה", "הדרכת פדגוגית", "קורסים מקוונים", "כרזה דיגיטלית - דף אינטרנט", "מפת מושגים", "אופיס 365", and "זכויות יוצרים". The right sidebar contains a navigation menu with various course options and a list of recent activities. The Windows taskbar at the bottom shows the system date and time as 21/10/2018, 8:48.
